

**DRYLOK® ORIGINAL
CONCRETE & MASONRY
WATERPROOFER**

Builder
BRAND LEADER 2021

#1 EXTERIOR FOUNDATION
WATERPROOFING
(CONSTRUCTION PHASE)

Unlike ordinary paint that adheres to a surface and can be forced off by incoming water pressure, DRYLOK® Original Concrete & Masonry Waterproofer penetrates the pores in that surface, bonding to the masonry and creating an impenetrable barrier.

This product is an essential part of the waterproofing process. **1** Prepare **2** Patch **3** Waterproof

FEATURES:

- Formula:** latex base
- Finish:** flat white, sandy texture
- Application tools:** brush or roller
- Location:** interior, exterior, below, above grade
- Where to use:** basements, fish ponds, retaining walls, bird baths, foundations, fountains, and more
- Optional:** if top-coating wait 24 hours
- Specifications:** conforms to ASTM D-7088 Resistance to Hydrostatic Pressure and ASTM D-6904 Resistance to Wind Driven Rain
- CSI Masterformat®:**
 - 07 14 16** COLD FLUID-APPLIED WATERPROOFING
 - 07 19 00** WATER REPELLENTS
 - 09 91 13** EXTERIOR PAINTING
 - 09 91 23** INTERIOR PAINTING

BENEFITS:

- GUARANTEED to stop water - withstands 10 pounds of hydrostatic pressure (PSI), equivalent to a wall of water 22 feet high
- Fully transferable 10 Year Warranty
- Helps protect against radon gas penetration
- Low-odor, water clean up, formula complies with all VOC requirements
- Semi-Impermeable coating – keeps water and vapor out. (<1 perm rating) will not trap moisture in the masonry
- Listed in Masterspec® and BSD SpecLink®
